JOB OPENING: PROJECT MANAGER

Pinnacle Mapping Technologies is looking for an experienced GIS/Photogrammetry Project Manager to work in our Indianapolis headquarters office. Pinnacle's mapping clients include private engineering firms, state government, county and city government agencies.

Pinnacle is a 100% digital (softcopy) photogrammetric mapping shop. We use the state-of-the-art Intergraph Z/I photogrammetric software suite for data capture and ESRI's ArcGIS 9.1 & 9.2 GIS software for geoprocessing. Pinnacle, as a member of ESRI Developer's Network continually strives to improve our geo-processing, quality control and digital data products by utilizing the latest advances in GIS technology.

Project Manager candidates must have a minimum of 2 years full-time experience in managing or directing GIS and/or photogrammetric mapping projects/programs. Direct interaction with our clients and their data is required, therefore, current knowledge and hands-on experience working with ESRI ArcGIS software is necessary. Additional experience working with/for local government GIS is a plus. Additional skills required include:

- Excellent verbal / written communication skills
- Proven Project/Program Management skills
- Good problem-solving skills
- Enthusiastic and eager to learn new technologies

If you are interested in this job opportunity, please call Danyale Short at 317.585.2011 or email dshort@pinnaclemapping.com
